ABSTRACT

This data supplement, which covers 1976-77, updates the statistics and information contained in EA 009 930. Both parts of "Planning for Better Education in Wisconsin" were compiled by the Wisconsin Department of Public Instruction to provide information needed by local school boards, administrators, advisory committees, and agency school committees. The purpose of these volumes is to provide information for school district planning and educational improvement. Sections of this data supplement cover school district organization, enrollment trends, school census and population information, school boards, and other areas. (Author/DS)

PREFACE

A major component of publicly supported education is the organization of the local school district. That organizational pattern reflects the result of careful planning at all levels from the local school district on to the Department of Public Instruction and even the broader scope of the U. S. Office of Education.

Realistic considerations must be an essential and integral part of any future models which will most certainly emerge. Included among these considerations will be, for example, the national energy crisis, the pluralistic nature of our society, and the desire to provide all students with an educational program on an equitable, efficient, effective, and practical basis. Recent and ongoing legislation in Wisconsin and at the national level must also be considered as the 19 agency school committees meet their responsibilities. It is imperative that school districts continue to explore ways to accomplish educational goals and yet allow for the concept of local control and self-determination.

This informational handbook was first established some years ago and revised on a regular basis to readily provide needed information for those committees and others as they plan together for an improved educational opportunity for the students. I trust that it will serve a useful purpose.

Barbara Thompson, Ph.D.
State Superintendent

INFORMATION SOURCES AND PLANNING ASSISTANCE

Most data included in this planning handbook has been compiled from annual and special reports filed by each school district with the State Superintendent. Various other sources of information have also been used including the following:

Wisconsin Department of Public Instruction Information Systems Section and Financial Aids Services Division.

Wisconsin Department of Administration Information Systems Unit.

The Department of Public Instruction provides broad consultative and informational services to local school boards and administrators, Agency School Committees, and other governmental agencies developing short and long-range plans for more effective and efficient school districts, improved educational programs and services, better management and administrative practices, and for assessing how well the needs of districts are being identified and met.

The Division for School Board and Administrator Services provides assistance in all areas relating to the organization and administration of school districts, school facility planning and maintenance, pupil transportation and school food services.

The Division for Management and Planning Services, Bureau of Planning and Evaluation provides assistance to districts involved in planning and needs assessments. The following Department of Public Instruction publications are also available on request:

"Introductory Planning Guide for Local School Districts" (Bulletin No. 5060).

"Local District Educational Planning, Some Considerations for Administrators and School Boards" (Bulletin No. 5426).

"Educational Planning and Evaluation, A Local District Perspective" (Bulletin No. 6553).

"Toward Excellence in Education" (Bulletin No. 5493).

FOREWORD

Good educational programs don't "just happen," they must be carefully planned and implemented. The planning must be based on complete and accurate data which has been carefully analyzed and properly interpreted. A strong administrative unit will have the enrollment, staff, facilities, and financial resources to implement the program.

"Planning for Better Education," 1976-77 edition, is a resource and a guide to be used by those interested in developing strong administrative units and planning good educational programs. It was designed for use by agency school committees, the primary school district reorganization authorities of the state. Prior editions have also been used extensively by legislators, organizations, and individuals as a source document for educational planning.

Planning points the way but has little value unless the plans are implemented. Implementation requires courageous and imaginative leadership from professionals and laymen at all levels. The educational future of the children of this and succeeding generations depends on how effectively this generation leads. It is hoped that this handbook will prove to be a valuable resource and guide to those leaders concerned with providing all Wisconsin youth with equal opportunities for a quality education.

Donald E. Dimick

Donald E. Dimick

Assistant Superintendent

INTRODUCTION

Agency School Committees were created by the legislature to work toward the improvement of education through the development of more effective and efficient school districts, and to make improved educational opportunities available to every Wisconsin boy and girl on as equitable a basis as practicable. Agency School Committees are the primary school district reorganization authorities in our state, but they are fulfilling only a part of their important responsibilities if the extent of their activities is only to handle requests directed to them for changes in school district boundaries and if they fail to provide dynamic leadership and guidance in the development of stronger administrative units consistent with a carefully formulated long-range plan based on sound educational and economic principles.

School district organization has never been permanent or static nor was it ever intended to be. So long as school districts can effectively and efficiently provide for the educational needs of the areas they serve, they are satisfactory, but when they can no longer do the job for which they were created, organizational structure should be modified or changed to adopt to changing needs and demands. Through the years, school districts in Wisconsin have undergone dramatic changes in types and numbers and they continue to change as is shown in the following table.

CHANGES IN THE NUMBER AND TYPES
OF WISCONSIN SCHOOL DISTRICTS
1937 to 1976

School Year	ELEMENTARY DISTRICTS					DISTRICTS OPERATING HIGH SCHOOLS			Total School Districts
	Non-Operating Districts	One-Room Rural	Two Teacher	Three or More Teachers	Total Elem. Districts	Grades K- or 1-12	Union High School	Total	
1937-38	472	6,181	436	262	7,351	344	82	426	7,777
1947-48	1,074	3,845	360	339	5,618	346	81	427	6,045
1957-58	29	2,380	339	404	3,152	336	80	416	3,568
1967-68	3	7	13	93	116	371	23	394	510
1971-72	0	0	0	62	62	368	14	382	444
1975-76	0	0	0	53	53	371	11	382	435
1976-77	0	0	0	53	53	372	11	383	436
Decrease 1937-1976	-472	-6,181	-436	-209	-7,298	+28	-71	-43	-7,341
Percent Change	-100.0%	-100.0%	-100.0%	-79.8%	-99.3%	+8.1%	-86.6%	-10.1%	-94.4%

Despite the progress that has been made to strengthen school district organizational structure, there are still too many inadequate districts that lack the capabilities to provide quality, comprehensive programs and services at a reasonable and justifiable cost. Today there is still need for careful long-range planning if all children in the state are to be provided equal educational opportunities.

Before planning for the development of more effective administrative units can be started, desirable standards for such units and the programs they provide must be established. These criteria can then be applied in (1) evaluating present school districts and, where deficiencies and limitations are evident in present districts, (2) suggesting ways of marshalling and reorganizing available resources into more effective districts to eliminate such deficiencies and to improve education, (3) developing a sound coordinated long-range plan for improving schools throughout the CESA, (4) showing the educational and financial advantages and disadvantages of changes suggested by the long-range plan or suggested by others, and (5) periodically reassessing the effectiveness of school districts to see if "... the goals of equal and improved educational opportunities for all children ..." are being realized. Any long-range plan must be reexamined from time to time and adjusted to stay in line with changing educational concepts and needs and economic conditions.

The purpose of this handbook is primarily to provide suggested guidelines and pertinent information that will be helpful to Agency School Committees in (a) assessing the effectiveness of present districts, (b) developing effective long-range plans for district organization, and (c) evaluating long-range plans periodically. The handbook has also been found to be a useful source of information in Wisconsin school districts by many working with the problems of education in Wisconsin. Your comments and suggestions as to how this handbook can be made more useful will be welcome and appreciated.

Agency School Committees and School District Reorganization in Wisconsin 1966 through 1976

Agency School Committees were created by the legislature to replace County School Committees as the primary school district reorganization authorities in Wisconsin. They assumed their responsibilities January 1, 1966 in each of the states' nineteen Cooperative Educational Service Agencies. Committees act on requests to alter school district boundaries or structure after holding public hearings and conferring with the school boards involved. Committees are also charged with the responsibility of assessing the effectiveness of existing school districts to determine if the goals of equal and improved educational opportunities for all children have been attained. Where needs exist, committees are responsible for formulating plans for strengthening school districts to enable them to provide comprehensive programs and services, and to operate with efficiency.

Agency School Committee members are appointed by Cooperative Educational Service Agency Boards of Control. Each committee is made up of 7 agency area residents appointed to 3-year terms. No more than one person can be appointed from any one school district. Persons appointed "shall have a recognized understanding of and an interest in the improvement of public education". (Sec. 116.51(1) Wis. Stats.).

SCHOOL DISTRICT REORGANIZATION PROCEDURES

Although Agency School Committees were created as reorganization authorities to facilitate changes in school district structure where deemed desirable, there are several other procedures provided by law for accomplishing this. Under certain circumstances people can petition school boards directly to transfer single properties from one school district to another or to consolidate districts. When territory is annexed to cities operating city school districts, school district boundaries may also be changed. Reorganization orders can also be issued by the State Appeal Board and the courts when Agency School Committee orders are appealed.

Of the 712 orders issued since 1966 which resulted in school district reorganization, 396 or 55.6% were issued by Agency School Committees. Transfers of single properties by school board action accounted for one-fourth of the reorganization. The following table shows the different procedures followed and the number of reorganizations accounted for by each:

PROCEDURES FOLLOWED IN REORGANIZING
SCHOOL DISTRICTS IN WISCONSIN
JANUARY 1, 1966 THROUGH DECEMBER 31, 1976

Procedure Followed	Total Reorganization Orders Issued	Percent of Total Orders
a. Agency School Committee Action (s. 117.02)	396	55.6%
b. Board resolution attaching single parcels (s. 117.08)*	182	25.6
c. Annexation of territory to city school districts (s. 66.021)	123	17.3
d. Consolidations by school district referendum (s. 117.06)*	3	0.4
e. Other procedures	8	1.1
TOTALS	712	100.0%

* Initiated by petitions directly to the school boards involved.

HOW SCHOOL DISTRICT REORGANIZATION ACTIONS ARE INITIATED

Most school district reorganization actions are initiated by local citizens through petitions asking that changes be made in their school districts. Such petitions are most generally filed with Agency School Committees but can also, under certain reorganization procedures, be submitted to school boards of the districts involved. Such petitions can call for changes ranging from the transfer of single pieces of property to the consolidation of entire districts to creating entirely new districts.

Of the 830 orders issued by Agency School Committees, 728 or 87.7% were actions in response to petitions. To assume that the remaining 102 were initiated solely by Agency School Committees on their own motions does not give an accurate picture either because most committee resolutions for hearings are in response to requests from school boards and citizen groups for Agency School Committees to take the action. All reorganizations resulting from joint school board action are initiated by petition.

The 182 transfers of single properties, which represent 25.6% of the total reorganization orders issued since 1966 were all initiated by petitions to the school boards as were the three consolidations realized by school district referendums under the provisions of s. 117.06. There are no records of the number of such petitions that did not successfully result in school district reorganization.

SCHOOL DISTRICT REORGANIZATION REFERENDUMS

Electors can petition for a referendum on any order issued by an Agency School Committee that reorganizes a school district, or the Committee itself can provide for such a referendum in the order. Of the 419 Agency School Committee orders

which approved reorganization, 86 or 20.5% were submitted to electors for final approval in referendums. The following table shows that electors approved proposed reorganizations subjected to referendums only about 38% of the time. It is also interesting to note that over two out of three referendums were initiated by the committees in their reorganization orders. Agency School Committee initiated referendums supported proposed reorganizations about 35% of the time as compared to a slightly better average of 38% for referendums initiated by petition.

SCHOOL DISTRICT REORGANIZATION REFERENDUMS 1966 - 1976

	REFERENDUMS INITIATED BY				TOTALS
	Agency School Committee Resolution		Petitioning of Electors		
	Number	Pct. of Total	Number	Pct. of Total	
Referendums held on Agency School Committee Orders	60	69.8%	26	30.2%	86
Referendums approving Agency School Committee Orders	21	67.7%	10	32.3%	31
Percent of referendums approving Agency School Committee Orders	35.0%	-	38.5%	-	36.0%

REORGANIZATION ORDERS APPEALED TO THE STATE APPEAL BOARD

Any order issued by an Agency School Committee can be appealed to the State Appeal Board by any aggrieved person. (s. 117.03) Of the total of 830 orders issued by Agency School Committees granting or denying requested reorganization from 1966 through 1976, a total of 260 or 31.3% were appealed by aggrieved parties to the State Appeal Board. The State Appeal Board upheld Agency School Committee orders almost 60 percent of the time. Actions taken by the State Appeal Board on Agency School Committee orders appealed are as follows:

STATE APPEAL BOARD ACTIONS 1966 Through 1976

State Appeal Board Action	Number of Appeals	Percent of Total
Agency School Committee Orders:		
Upheld	155	59.6%
Reversed	85	32.7
Modified	7	2.7
Rejected as incorrect	13	5.0
TOTALS	260	100.0%

REORGANIZATION ORDERS APPEALED TO THE COURTS

State Appeal Board orders of reorganization can be appealed to Circuit Court, and, if upheld there, can be appealed to the Supreme Court. When orders affecting school district reorganization are appealed to the court, the sole issue considered is whether the reorganization authority acted within its jurisdiction and whether its order was arbitrary or capricious and not the merits of the reorganization ordered. Through 1976 38 State Appeal Board orders were appealed to Circuit Court. The court upheld the State Appeal Board in 28 of the 30 appeals acted upon. Five orders appealed were dismissed, three were withdrawn, and two are still pending. Fourteen Circuit Court reorganization orders have been appealed to the Supreme Court which affirmed eight and dismissed the remaining six.

To Summarize . . .

1. Agency School Committee actions account for 55% of the changes in school district boundaries or structure.
2. Most reorganization actions are initiated by petitions of electors to Agency School Committees or to school boards.
3. Agency School Committee orders of reorganization have been upheld by electors in referendums about 35% of the time.
4. Agency School Committee orders appealed to the State Appeal Board have been upheld about 60% of the time with less than one in three being reversed.
5. State Appeal Board orders calling for reorganization and appealed to the Court have been upheld almost 95% of the time.

County superintendents	None	70	72	51	None ^g	None ^g

(a) All territory required to be part of a district operating a high school effective July 1, 1962.

(b) Largest number of districts in state's history. Included 6,181 one-room rural districts, 698 elementary districts with two or more teachers, 472 non-operating elementary districts, 82 union high districts and 344 K-12 districts.

(c) Some districts operated two or more high schools: 1970-71 - 21 districts operated 61 high schools; 1976-77 - 23 districts operated 66 high schools.

(d) Includes 2,139 nursery pupils.

(e) The minimum legal school term was six months. References, however, show that the nine-month school term was the accepted term in districts operating high schools.

(f) Last one-room rural school district dissolved in 1970 (Palestine School in the Mukwonago UHS district).

(g) Wisconsin's system of county superintendents, which had been in operation over a century, was replaced by 19 regional Cooperative Educational Service Agencies (CESA) July 1, 1965. When discontinued, there were 51 county offices in operation.

a. County School Committees established effective January 1, 1948.

b. 1953 legislature abolished all non-operating school districts as of July 1, 1955.

c. 1959 legislature mandated all territory to be part of a high school district by July 1, 1962.

d. Agency School Committees established, effective January 1, 1966.

* The 1937-38 school year had the highest total number of districts.

NOTE: From 1963-64 on district counts are as of July 1 of the school year indicated.

Dates of earlier counts may vary.

UNIFIED SCHOOL DISTRICTS IN WISCONSIN

DISTRICT NAMES AND ESTABLISHMENT DATES AND PROCEDURES

The UNIFIED SCHOOL DISTRICT plan of school government, created by Bill 499A in 1959 by the State Legislature, is the newest of five different **types** of school districts authorized by law in Wisconsin. The unified school district was created by the legislature to fill needs which had developed as the state moved toward placing all territory in districts operating high schools and as districts became larger. The other types of school district government are (1) common school districts, K-12 and K-8, (2) union high school districts, (3) city school districts, and (4) cities of the first class districts (Milwaukee only).

Since 1959, 17 unified school districts have been created. Sixteen of these are districts that changed from city school districts and one, Fredonia, from the common school district form of school district government. Following are present unified districts in Wisconsin, listed in order of their creation, procedures followed in their creation, and when established.

<u>UNIFIED DISTRICT</u>	<u>CESA</u>	<u>STATUTORY PROVISION</u>	<u>EFFECTIVE DATE</u>
Whitewater	18	120.50(5)	7/1/60
Racine	18	40.06	6/26/61

SUMMARY-CITY SCHOOL DISTRICTS THAT HAVE CHANGED SINCE 1948

Total districts in operation since 1948	83 ^c
Districts that changed to unified districts	16(19.3%) ^a
Districts that changed to common school districts	25(30.1%)
Total city school districts that changed	41(49.4% of total)

a - Since the creation of unified districts in 1959, two out of three (16 of 24) city districts that changed went to unified districts.

b - City school districts that changed first to union high and elementary school districts, then to common school districts. The Rhineland and Wisc. Dells UHS districts each included a city elementary district. Effective dates of changes to UHS districts: Burlington-5/9/51; Rhineland-7/6/55; Weyauwega-11/13/56; Wisc. Dells-7/1/49.

c - Includes 2 city districts created since 1948-Oak Creek: Jt. 1, Glendale Elem.

^a Most school districts in Wisconsin are joint school districts or districts whose territory is in more than one municipality. Only the districts listed above are located entirely within a single municipality. Boundaries of starred districts are coterminous with municipal boundaries; in the other districts listed, portions of the municipality are in other school districts.

^b Numbered districts (e.g., #1, Lac du Flambeau) are elementary districts.

^c City School districts with boundaries coterminous with the city (3)

- a - Joint Agency School Committee orders attributed only to the agency in which the largest area of the proposed reorganized district lies.
- b - Any Agency School Committee order can be appealed to the State Appeal Board. Only orders of reorganization can be taken to referenda.
- c - 31 or 36% of the 86 referenda affirmed the orders of Agency School Committees and resulted in reorganization.
- d - Attachment of single parcels by school board resolution.
- e - Annexation of territory to a city with a city school district.
- f - Consolidation of districts by school district referendum.
- g - 117.01(1)(e) (originally 40.035) requiring all territory to be included in school districts operating high schools.
- h - 120.50 or fiscal board action abolishing the city school district and creating a common or unified district.
- i - 10.43 or direct legislation.
- j - Orders pending in Circuit/Supreme Court.

* - Includes 72 Joint Agency Hearings from 1966 through 1972.

a - Agency School Committees replaced County School Committees as the primary school reorganization authorities effective January 1, 1966.

b - Includes 125 Joint Agency School Committee hearings.

c - An aggrieved person can appeal any Agency School Committee Order (§. 117.03).

d - Only State Appeal Board orders which provide school district reorganization can be appealed to Circuit Court (§. 117.03(4), Wis. Stats.).

e - Agency School Committees approved 50.5% of the reorganization proposals considered.

SCHOOL DISTRICT REORGANIZATION

through Agency School Committee Action

INITIATING THE ACTION	BY <u>ELECTORS</u> filing a petition signed by 10% of the electors residing in the proposed reorganized district <u>or</u> 10% in the territory proposed to be detached. 117.02(1)(a), <u>or</u> BY <u>AGENCY SCHOOL COMMITTEE</u> on its own motion by adopting a resolution. 117.02(1)(a)
THE PUBLIC HEARING	<u>HELD WITHIN 30 DAYS</u> of filing of petition or adoption of resolution - date, time and place set by secretary of Agency School Committee. 117.02(1)(a) <u>NOTICE OF HEARING</u> mailed to clerks (certified mail) and members of governing body of each school district, town, village or city affected at least 10 days before hearing. Notices shall be published as required by law in school districts affected. 117.02(3), 985.01(3), 957.07(2). (NOTE: Often public informational meetings are held prior to the formal public hearing.)
REACHING A DECISION	<u>CONFERENCE WITH SCHOOL BOARDS</u> of districts affected must be held within 30 days of hearing, but usually as a concluding part of hearing. <u>DECISION</u> approving or denying reorganization <u>must</u> be reached at this conference. 117.02(1)(a). Order conforming with decision made at conference with school boards must be issued within 10 days. 117.02(1)(a)
PROVISIONS OF THE ORDER	Every order of school district reorganization shall include the following: 1. <u>DESCRIPTION OF TERRITORY</u> involved and how districts are affected. 117.01(2)(a) 2. <u>EFFECTIVE DATE</u> - not less than 30 days after mailing or more than one year after filing. 117.01(2)(b) 3. <u>WHEN A NEW DISTRICT IS CREATED</u>, order must include: 117.01(2)(a) a. <u>NAME AND NUMBER</u> of new district according to municipalities. b. <u>SCHOOL BOARD</u>, number of members and method of election. c. <u>TYPE</u> of district and <u>GRADES</u> to be taught. d. <u>FIRST ANNUAL MEETING</u>, date, time and place. 4. Order <u>may</u> also direct holding of a <u>REFERENDUM</u> on committee's own motion. 117.02(4)(a). Referendum <u>may</u> also be upon <u>approval of a high school site</u> in common school districts. 117.02(4)(b)
PROCESSING THE ORDER	Order approving or denying reorganization must be filed within 10 days with Secretary of Agency School Committee who, within 5 days of receipt, shall send certified copies to the clerk of each district, municipality and county affected and the State Superintendent. 117.01(2)(c)
RECOURSE OF ELECTORS	Within 30 days following the mailing of an order, any aggrieved person may <u>APPEAL TO THE STATE APPEAL BOARD</u>, 117.03(1)(a), or, if an order of reorganization, call for a <u>REFERENDUM</u> if petitioned for by 10% or 500 electors in the proposed reorganized district, <u>or</u> 10% living in villages and cities, <u>or</u> 10% who live in towns in the proposed reorganized district. The order is not effective unless approved by a majority who reside in cities and villages <u>and</u> a majority residing in towns. 117.02(4)(a) Within 30 days of mailing, any person aggrieved by order of State Appeal Board may <u>APPEAL TO CIRCUIT COURT</u>, 117.03(4). Order may be appealed to the <u>SUPREME COURT</u> within 60 days of filing by any party to the circuit court appeal. 117.03(5)

a - Joint ASC hearings are credited to both committees involved. Total actual hearings equal 830 with 728 regular and 125 joint hearings.

b - An order issued by a Joint ASC is credited only to the agency in which the largest area of the proposed reorganized district lies.

c - U - Upheld; V - Voided.

SCHOOL DISTRICT REORGANIZATION PROCEDURES IN WISCONSIN

	SCHOOL DISTRICT REORGANIZATION PROCEDURES		
	THROUGH AGENCY SCHOOL COMMITTEE	BY SCHOOL DISTRICT REFERENDUM	BY SCHOOL BOARD RESOLUTION
STATUTES THAT APPLY*	s. 117.01, 117.02, 117.03	s. 117.01, 117.06	s. 117.01, 117.08
TYPE OF REORGANIZATION	Reorganization and/or consolidation of school districts or transfer of territory from one district to another	Consolidation of two or more entire districts into a single district	Transfer of single parcels of property adjoining school district boundaries
HOW ACTION IS INITIATED	By petition of electors to, or by resolution of the Agency School Committee	By petition of sufficient electors in each district to the respective school boards	By written petition of the owner filed with each school board
ACTION TAKEN	Public hearing within 30 days of petition or resolution followed by conference with school boards. Decision to approve or deny proposed reorganization must be made at this conference.	School boards meet and set time for referendum which shall be from 2 to 4 weeks of this meeting	Notice of proposed transfer must be published in districts at least 20 days prior to authorization of transfer. Both boards must adopt resolutions to transfer property
ORDER OF APPROVAL OR DENIAL OF REORGANIZATION	Issued by Agency School Committee within 10 days of conference with school boards	Order made and filed by the school boards after canvassing referendum returns one week after the referendum	Adopted resolutions approving transfer constitute an order of reorganization; failure to act within 60 days constitutes an order of denial
EFFECTIVE DATE OF ORDER	Not less than 30 days after mailing or more than 1 year after filing of order. If referendum, and unless later date specified, date results certified is the effective date	Unless later date specified, and not later than 1 year from filing of order, effective date is the date referendum results are certified	July 1 following issuance of order
REFERENDUM	Only if directed by the Agency School Committee order, or petitioned for by electors within 30 days of mailing of order approving reorganization. Order not effective unless approved by majority in cities and villages and majority in towns	Set by school boards. A majority of votes cast in each district in favor of the consolidation is required to affect the consolidation	None
FURTHER RECOURSES	Any aggrieved person may appeal an Agency School Committee order to the State Appeal Board within 30 days of mailing. Reorganization orders of the State Appeal Board may be appealed to the courts	None	None

* Refer to statutes indicated for complete information on requirements and procedures.

a - Any person aggrieved by an order of an Agency School Committee may appeal to the State Appeal Board - S. 117.03.

b - The first Agency School Committees took office January 1, 1966.

44 c - Total appeals - 257. Two appeals involved more than one Agency School Committee order - 66A,B:112A,B,C.

d - Normally two appeals are considered each day the State Appeal Board meets.

e - Some districts have been involved in more than one appeal.

f - One order also voided by referendum.

g - By Referendum: Orders voided (VR), Affirmed (AR), Invalid Orders (IO), Invalid Appeals (IA).

a - Last one room rural district in Wisconsin dissolved 6/30/70 - Palestine School, Jt. 1, Eagle, Ottawa in the Mukwonago UHS district.

b - Elementary districts reduced from 7,351 in 1937-38 to 53 in 1975-76.

c - Peak public elementary enrollment. K-12 enrollment in 1971-72 - 999,921.

d - Non-public K-8 enrollments dropped 29.0% from 231,909 to 164,671 during this period.

WISCONSIN PUBLIC SCHOOL ENROLLMENTS
BY DISTRICT TYPE
1915-1916 through 1976-77

- a - Peak total K-12 enrollment in 1971-72 - 999,921
- b - Peak elementary (K-8) enrollment 1970-71 - 679,887
- c - Last one-room rural district dissolved in 1970 (Jt. 1, Eagle, Palestine School)

a - S. 120.02(2), Laws of Wisconsin, enables school districts to establish a plan of apportionment of school board members. Electors of a district can vote to adopt such a plan or an order of school district reorganization may include a plan.

b - Districts reported as electing board members according to an area plan of apportionment in the "School District Fall Report - Part II."

c - All common school districts except one city school district (Jt. 1, City Glendale).

d. Avg. pct. of borrowing power committed ^h , 6/30/76	12.5%	9.2%	8.7%	12.5%	8.5%	11.6%

FOOTNOTES

a - Union high and elementary districts considered as K-12 districts for comparison purposes.

b - 11 union high with 53 elementary districts. The 11 UHS districts make up 2.9% of the total 383 Wisconsin districts operating high schools.

c - The 383 districts operating high schools (including UHS districts) averaged 2,468 K-12 pupils per district.

d - 1975 equalized valuation divided by 1976-77 resident ADM - aid purposes.

e - Where shared costs do not exceed primary level ceilings, this percent indicates the approximate portion of K-12 shared costs which must be raised by the local district with state equalization aid making up the balance.

f - Shared costs are costs shared by the local district and the state and include operational costs less operational receipts (net operating costs) plus up to \$100 per pupil for debt retirement and current capital outlay.

g - Total borrowing power equals 10% of equalized valuation in K-12 districts, 5% in other UHS and elementary districts. Net borrowing power equals total potential borrowing power minus outstanding long-term indebtedness.

h - Total indebtedness divided by total potential borrowing power.

FOOTNOTES

- a - Includes 372 K-12 and 11 Union High School Districts (numbers in parentheses). The 11 UHS districts and the 53 elementary districts within them have been considered as K-12 districts in this table.
- b - 1975 equalized valuation divided by the 1976-77 resident average daily membership (ADM).
- c - Total professional staffs, including administrators, supervisors, etc., but not interns and aides, divided by fall ADM.
- d - Total 1976-77 school tax levies based on 1976 equalized valuations.
- e - Average long-term indebtedness per district June 30, 1976.
- f - Total indebtedness divided by 10% of the total 1976 equalized valuation.

a - 1975 equalized valuation used as a basis for determining 1976-77 aids.

b - Total UHS district valuation divided by total resident high school plus elementary enrollments.

c - Valuation per resident pupil ADM divided by \$102,700, the primary guaranteed valuation for K-12 districts.

d - Total UHS and elementary district operating costs divided by total elementary plus high school ADM.

e - Elementary districts with territory in two UHS districts have been counted only in the UHS district in which the major portion is found.

f - Elementary district plus high school district school tax rates.

GLOSSARY

ACADEMIC COURSES - See Course Offerings

ADMINISTRATIVE UNIT - See School Districts

AGENCY SCHOOL COMMITTEES - the primary school district reorganization authorities in Wisconsin. Each of the 19 Cooperative Educational Service Agencies (CESA) has a seven-member committee appointed by the Board of Control. Members appointed for three-year terms must be residents of the CESA territory with recognized understandings of and interests in the improvement of public education. No more than one member can be appointed from any one district. Each committee is also responsible for the development of long-range plans to strengthen districts within the CESA to enable them to effectively provide comprehensive programs and services "which meet the present and future needs of the children of the state," and which can "function with efficiency and at a justifiable cost to the local taxpayers and to the state." [S. 116.51(2) Wis. Stats.]

ASSESSED VALUATION - the value placed on a taxable general property by the local assessor as of May 1 each year as he makes up his assessment roll. The assessed valuation divided by the equalized or full valuation indicates the assessment ratio or average level at which property has been valued by the local assessor for property tax purposes.

ATTENDANCE CENTER - a school building with classrooms and other educational facilities such as an elementary school, junior high school, middle school, or high school.

ADM - Average Daily Membership is the average number of students enrolled. Nursery and kindergarten ADM equals one-half the enrollment because it is a half-day program. ADM for aid purposes is the number of resident K-12 pupils enrolled on the third Friday in September plus equivalent summer school enrollments. Resident ADM includes only those pupils residing within the district.

BORROWING POWER - See Indebtedness

CAPSTONE COURSES - See Course Offerings

CENSUS - the school census is a count of all children from birth through 19 years old as of June 30 each year. All districts except union high school districts must file a census report with the Department of Public Instruction each year.

COMPREHENSIVE HIGH SCHOOL - a secondary school that provides a broad and appropriate program of general academic, enrichment, and vocationally oriented courses as well as supportive services designed to meet the varied needs of all students including students with different abilities and interests, and students with different vocational and professional ambitions and motivations.

COURSE OFFERINGS, HIGH SCHOOL - the different courses provided by each high school. Courses are divided into two main categories:

1. GENERAL ACADEMIC AND ENRICHMENT COURSES which include courses in English and language arts, foreign languages, social studies, mathematics, natural sciences, music, art, physical education, health.
2. PRACTICAL AND VOCATIONAL COURSES which include courses in driver education, agriculture, home economics, business education, distributive education and industrial education. Courses such as beginning typing, home economics, industrial arts, etc., generally offered in grades 9 and 10, are referred to as PRACTICAL COURSES. VOCATIONAL COURSES are those oriented toward a vocation and are usually offered in grades 11 and 12. CAPSTONE COURSES at the senior level are more closely aligned with employment needs, demands and opportunities and prepare students to either enter the labor market directly or go into advanced phases of training in post-high school vocational-technical schools.

DISTRICT - See School Districts

ELEMENTARY - for statistical purposes, grades kindergarten through 8 are considered elementary. However, the elementary level in most organizational patterns includes grades K through 6 (sometimes 5) which is followed by the middle or junior high school level. (See Organizational Patterns)

EQUALIZATION AID - See State Aids

EQUALIZED VALUATION - or full valuation is the district valuation as certified to the State Superintendent by the Bureau of Property Tax of the Wisconsin Department of Revenue, which is charged with the responsibility of determining the actual market value of all the general property in each taxation district as of October 1 each year. The previous year's equalized valuation is used as a basis for prorating school tax levies to the various municipalities in the district and for determining state aids through 1973-74 after which the current year's valuations will be used.

F.T.E. PROFESSIONAL STAFF - Full-Time Equivalent staff members or the equivalent of full-time teachers and other professional staff members employed at the elementary and high school levels.

FULL VALUATION - See Equalized Valuation

GUARANTEED VALUATION - the PRIMARY GUARANTEED VALUATION is the per resident pupil valuation set by the legislature for use in computing equalization aid and represents the valuation considered necessary to enable a district to support a good educational program. It is used in computing state aids on shared cost which do not exceed 110% of the previous year's state average for the same type district. The SECONDARY GUARANTEED VALUATION is used in computing aid on shared costs exceeding the 110% ceiling. In K-12 districts it is determined by dividing the equalized valuation of the state by the number of pupils enrolled in the state rounded to the nearest \$100. In UHS and K-8 districts, the secondary guaranteed valuation is determined by multiplying the primary guaranteed valuation by the quotient of the K-12 secondary guaranteed valuation divided by the K-12 primary guaranteed valuation (e.g. for UHS districts $\$253,000 \times \frac{\$55,200}{\$90,200} = \$155,400$)

The TOTAL DISTRICT GUARANTEED VALUATION is the per resident pupil guaranteed valuation multiplied by the number of resident pupils enrolled (ADM). Guaranteed valuations are:

PER RESIDENT PUPIL GUARANTEED VALUATIONS and COST CEILINGS

Type District	Guaranteed Valuations				Primary Cost Ceilings	
	1975-76		1976-77		1975-76	1976-77
	Primary	Secondary	Primary	Secondary		
K-12	\$ 90,200	\$ 55,400	\$102,700	\$ 63,300	\$1,405	\$1,534
UHS	253,000	155,400	288,100	177,600	1,405	1,534
K-8	107,300	65,900	122,200	75,300	1,405	1,534

GUARANTEED VALUATION, PERCENT OF - the valuation per resident pupil ADM divided by the guaranteed valuation. This is a general indication of the proportion of shared costs which must be raised by the local district with the balance paid by general state aids in districts receiving equalization aids. For example, in 1973-74 a K-12 district with a valuation of \$51,350 per resident pupil ADM, or one-half the \$102,700 primary guaranteed valuation, and whose per pupil net operating costs did not exceed 110% of the 1973-74 state average, would have a required operating levy equal to 50% of the total shared costs and equalization aids would equal 50% of those costs.

HIGH SCHOOL - for statistical purposes, grades 9 through 12 are considered the high school grades. Although most high schools in Wisconsin are four-year 9-12 grade high schools, some are three-year 10-12 grade high schools, with a few two-year 9-10 and 11-12 grade high schools. (See Organizational Patterns)

INDEBTEDNESS - LONG-TERM - for school purposes is limited to 10% of the equalized valuation of the district at the time the debt is incurred in school districts offering no less than grades 1 to 12 and the borrowing power of districts offering less than grades 1 to 12 (union high school districts and common elementary districts) is limited to a maximum of 5% of their equalized valuations.

JOINT SCHOOL DISTRICT - See School Districts

JUNIOR HIGH SCHOOL - grades 7-8-9 (sometimes 7-8) with programs and services to meet the special physical, intellectual, emotional, and social needs of early adolescents. (See Middle School, Organizational Patterns)

MIDDLE SCHOOL - grades 6-7-8 (sometimes 5-6-7-8) with programs to meet the special needs of early adolescents. This organizational pattern is considered by many today to be better suited to meeting such needs than the junior high school which was created in the early 1900's. There is evidence that children today mature faster and are becoming more socially sophisticated at an earlier age than they did in the past. The middle school program is designed to adapt to the changing needs of this age group. (See Junior High School, Organizational Patterns)

NEGATIVE AIDS - See State Aids (See also Shared Costs)

OPERATING COSTS - current costs to operate and maintain the district schools.

TOTAL OPERATING COSTS - total amount budgeted for current operating costs which includes costs of instruction, administration, attendance, health, transportation, operation, maintenance, fixed charges and some capital outlay. (Line 0990, column 1, Fall Report.) Total operating cost per pupil ADM equals the total operating costs divided by the total resident and non-resident average daily membership including equivalent summer school and nursery membership.

NET OPERATING COSTS - total operating costs less operational or "deductible" receipts (generally receipts other than the local levy and general state aids). (Total operating costs minus line 0010, column 1, Fall Report.) Net operating cost per pupil ADM equals net operating costs divided by total resident ADM including equivalent resident summer school and nursery ADM.

ORGANIZATIONAL PATTERNS, EDUCATIONAL PROGRAM - Wisconsin school districts employ a number of different organizational or grade level housing patterns designed to best provide appropriate educational programs and services that meet the special needs of boys and girls in each age level. The organizational pattern is often indicated by numbers which tell the number of grades included at each level such as 6-2-4, 6-3-3, 5-3-4, etc. Grade levels are most commonly designated as follows:

Elementary School	- Grades K through 5 or 6
Middle School	- Grades 6 through 8
or	
Junior High School	- Grades 7 through 9 or 8
High School	- Grades 9 or 10 through 12

PRACTICAL COURSES - See Course Offerings

PRIMARY GUARANTEED VALUATION - See Guaranteed Valuation

PROFESSIONAL STAFFS - all professional personnel employed including classroom teachers, special instructors, supervisory and administrative personnel, etc.

PUPIL/STAFF RATIOS - total pupils in average daily membership divided by the total full-time equivalent professional staff.

REQUIRED LEVY - the difference between total shared costs and total state aids or the amount a district must levy to pay its portion of shared costs. The REQUIRED LEVY RATE is the quotient of required levy divided by the district equalized valuation.

REQUIRED MILL LEVY RATE - used in the computation of state aids--the PRIMARY LEVY RATE is the quotient of the primary shared costs divided by the primary guaranteed valuation. The SECONDARY LEVY RATE is the secondary shared cost divided by the secondary guaranteed valuation.

SCHOOL DISTRICTS - or administrative units are the local governmental units for school administration. Education is a state function and school districts are agencies of the state and derive all of their powers from the state. The five types of the districts in Wisconsin are: COMMON SCHOOL DISTRICTS, UNION HIGH SCHOOL DISTRICTS, UNIFIED SCHOOL DISTRICTS, CITY SCHOOL DISTRICTS and CITY OF THE FIRST CLASS (or Special Charter) DISTRICTS. All Wisconsin school districts except city school districts are fiscally independent and have taxing powers. A city school district is fiscally dependent upon a fiscal board which includes the city council plus village presidents and town chairmen when area outside the city is included in the district. A joint school district is a school district whose territory is not wholly within one municipality.

SECONDARY GUARANTEED VALUATION - See Guaranteed Valuation

SHARED COSTS - school district costs shared by the local district and the state--includes the cost of operation, minus operational receipts (net operating costs) plus the principal and interest payments on long-term indebtedness and annual capital outlay for the current school year. The sum of the interest and principal payments and annual capital outlay included in shared costs may not exceed \$100 per pupil. State aid on that portion of a district's shared cost per pupil which does not exceed 110% of the state average per pupil shared cost for the previous school year for school districts of like organization is computed on the basis of the PRIMARY GUARANTEED VALUATION; shared costs in excess of 110% of the previous year's state average is computed on the basis of the SECONDARY GUARANTEED VALUATION.

STATE AIDS, GENERAL EQUALIZATION - aids paid to school districts by the state computed on the basis of enrollments, district equalized valuation, and shared costs. The state aid formula is designed to enable every district to provide adequate educational opportunities to every child on as equitable a basis as possible and with as equitable a local tax effort as possible. Under the provisions of

the aid formula which went into effect in 1973-74, state aid paid to a school district equals the difference between the primary guaranteed valuation and the district equalized valuation multiplied by the primary required levy rate plus the difference between the secondary guaranteed valuation and the district valuation multiplied by the secondary required levy rate.

NEGATIVE AID - results when the primary and/or secondary guaranteed valuation exceeds the district equalized valuation, and the difference between the guaranteed valuation and the equalized valuation is a negative sum, which, when multiplied by the required levy rate constitutes an amount that must be paid by the district to the state. Until 1977-78, no primary negative aid will be assessed districts. No negative aid payments to the state will be required prior to the 1976-77 school year.

TRANSITIONAL AID - in 1973-74, every district received no less than 90% of the difference between general state aid received in 1972-73 (the sum of the general state aid and the employer's share of teacher retirement and social security) and aids as computed according to the new aid formula. Each following year, the difference between 1972-73 aids received and aid according to the aid formula that is guaranteed to districts will be reduced by 10%.

STANDARDS, SCHOOL DISTRICT - to be eligible for state aid, all Wisconsin school districts must meet certain standards with criteria established by the Department of Public Instruction. The thirteen basic standards, which are included in S. 121.02, Wis. Stats., can be found in Part I, A Quality Educational Program, of this handbook.

TRANSITIONAL AID - See State Aids

VALUATION PER RESIDENT PUPIL - the total equalized valuation divided by the total resident K-12 pupil ADM equals the per pupil valuation or the valuation behind each pupil. This is an indication of a district's ability to support education. (See also Guaranteed Valuation, Percent Of.)

VOCATIONAL COURSES - See Course Offerings

NAMES OF WISCONSIN SCHOOL DISTRICTS

Chapter 189, Laws of 1975, amended Section 115.01(5) of Wisconsin Statutes as follows:

115.01(5) NAME. Each school district shall be known by the designation "School District of" followed by the name of the municipalities in which any high schools operated by the district lie, except that a school board may, by resolution enacted within 90 days of the effective date of this act, designate a different name for the school district; however, such name shall contain the words "School District". A school district which does not operate a high school shall be known by number and by the name of the municipality or municipalities in which it lies.

ELEMENTARY DISTRICTS AND SCHOOLS in UNION HIGH SCHOOL DISTRICTS

ARROWHEAD HIGH SCHOOL DISTRICT

(Arrowhead Union High Schools - North and South Campuses)

<u>Elementary Districts</u>	<u>Elementary Schools</u>
